

Family Solutions

Providing mental health services for children & families

Formerly SOCSOC & Family Friends

Help Us Help the Children & Families of Southern Oregon

Family Solutions is a community-based nonprofit organization that has been offering mental health services to children and families in southern Oregon since 1971.

We believe it is a fundamental right of all children to have the care and support that ensures their healthy development. The best place to ensure a child's healthy development is within a healthy family, so we support the child within the family and the family within the community. We focus on early childhood learning, social and emotional well-being, and skilled parenting.

Since our programs are only partially funded by grants, we rely on community donations to provide crucial help to families in crisis, children who suffer from emotional and behavioral afflictions, and children who have endured abuse or neglect.

Please take a moment to fill out the form below and return it to us with your tax-deductible donation. Your compassion and contribution **make a real and lasting difference in a child's life**. On behalf of the children we serve, thank you for your support! —*Thomas Johnson, Executive Director, Family Solutions*
